HIGHCLERE CASTLE GIN
Our family has lived at Highclere Castle since 1679, when gin first came to England's shores. Today, Highclere Castle Gin is inspired by botanicals hand chosen from the Castle's herb gardens, originally planted in the ninth century by the Bishops of Winchester. With a delicate balance of juniper, lime flower, orange peel and a touch of lavender, it is the true essence of Highclere's ancient estate. Enjoy traditionally with tonic water or as a base for your favorite cocktail.
We hope you enjoy it as much as we do.
—The 8th Earl & Countess of Carnarvon
